

CORPORATE PROFILE

Daxor Corporation is an innovative medical instrumentation and biotechnology company. We manufacture the BVA-100 Blood Volume Analyzer, the first instrument cleared by the FDA to provide rapid direct measurement of a patient's blood volume and optimal volume. Since its introduction, the BVA-100 Blood Volume Analyzer has been used in over 40,000 clinical cases and numerous research studies highlighting its potential to transform therapy in a broad range of surgical and medical conditions. The company's mission is to help hospitals and physicians incorporate DAXOR's advanced technologies to significantly improve the quality of patient care.
