

CORPORATE PROFILE

Indonesia Energy Company is an independent energy company engaged in the oil and gas business with operations primarily in Indonesia.

Our strategy is to build an oil and gas assets portfolio with an optimum mix between medium-sized producing blocks and exploration blocks with significant potential resources.

INVESTMENT HIGHLIGHTS

Our management team members have extensive experience in petroleum exploration, development and production operations. Together they have successfully operated more than 17 oil and gas blocks and found and developed more than 10 oil and gas fields over the last 15 years.

Our recently added management team located in the United States consists of our President and Chief Financial Officer. Our President brings 40 years of public energy company experience and was the founder of two NYSE American listed energy companies. Our Chief Financial Officer brings 37 years of experience in finance, 15 of them in public companies.

GROWTH STRATEGY

Our mission is to efficiently manage targeted profitable energy resources in Indonesia by executing sustainable projects with excellence. This strategy allows us to maintain a sustainable oil and gas upstream business and should generate excess returns on investment along with reducing risk exposure.
