

## CORPORATE PROFILE

Founded in 2010, Sigma Labs is a software company that specializes in the development and commercialization of real-time computer-aided inspection (CAI) solutions known as PrintRite3D® for 3D advanced manufacturing technologies. Our people, processes and technologies are recognized leaders in disruptive technologies. Our products and services are engineered, manufactured, and qualified for use in highly demanding production environments for the aerospace & defense industries. Sigma's innovative approach to quality control/assurance is a proactive, comprehensive and process-focused methodology that allows prediction with adequate confidence of product conformance to defined acceptance requirements. Since inception in Sept 2010, Sigma has been able to establish credibility and acceptance within the aerospace & defense community and has become the go-to AM experts for real-time computer aided inspection (CAI) solutions. Sigma is ITAR Certified.
