

CORPORATE PROFILE

Sysorex offers a comprehensive suite of network performance, secure wireless access and cybersecurity products and services from leading manufacturers that improve overall network performance and business operations. Since its inception, Sysorex Government Services (Sysorex) has helped customers meet their strategic missions by providing secure, optimized IT solutions that allow them to perform more efficiently and effectively. Sysorex's integration and engineering services are reliable, cost-effective solutions for companies seeking to acquire and develop new capabilities and optimize legacy systems. We collaborate with customers, partners and employees to provide the most effective solutions in network engineering services, application lifecycle services, and acquisition services.
